Chocolate Sales Performance Dashboard

Project Documentation & Sales Analysis

Dashboard Preview

Project Overview

This dashboard summarizes chocolate shipment sales performance through sales trends, geographic comparisons, product box volumes, monthly sales, and order-status analysis. This documentation is based on the uploaded dashboard PDF and Excel workbook.

Key Performance Indicators

Metric	Value
Total Sales	44,692,389.00
Total Boxes	3,784,002
Total Shipments	7,905
Average Sales per Shipment	5,653.69
Minimum Shipment Amount (source data)	2.25
Maximum Shipment Amount (source data)	33,484.50

Geographic Sales Performance

Geographic ID	Sales Amount
G6	10,541,805.75
G1	10,393,677.00
G2	7,896,249.00
G5	7,809,234.75
G4	5,392,820.25
G3	2,658,602.25

Order Status Distribution

Order Status	Shipment Count	Share
Delivered	6,356	80.4%
Shipped	793	10.0%
Placed	385	4.9%
Cancelled	371	4.7%

Key Observations

• G6 is the leading geography by sales (10,541,805.75), followed by G1 (10,393,677.00).

• G3 has the lowest geographic sales amount (2,658,602.25).

• Delivered shipments represent 80.4% of all shipment records.

• The workbook contains 7,905 shipment rows from 01 Jan 2023 to 28 Aug 2025.

Dataset Structure

Shipments: ShipmentID, SPID, PID, GID, Shipdate, Amount, Boxes, and Order_Status (7,905 records).
Dimension Data: product, category, cost per box, geography, region, salesperson, and team lookup information.

Dashboard Components

• Sales Trend – shipment sales amount over time.

• Sales by Geography ID – sales comparison across G1–G6.

• Shipment Details Table – geographic sales ranking.

• Boxes by Product ID – product-wise box volume.

• Monthly Sales – sales by shipment month.

• Order Status Distribution and Sales by Order Status – order status mix and sales comparison.

• Date Range Filter – date-based dashboard filtering.

Source Notes

Numeric analysis in this report is calculated from all rows in the uploaded Shipments worksheet. The dashboard preview is reproduced from the supplied one-page dashboard PDF. The source workbook's minimum transaction amount is shown separately from the dashboard's displayed Minimum Sales card. A Power BI PBIX file was not included in the uploaded materials.
